

VI INTERNACIONAL WORKSHOP ON PLANNING AND SUSTAINABLE DEVELOPMENT IN WATERSHEDS

The International workshop on Planning and Sustainable Development in Watersheds has been consolidating itself as a **biannual technical-scientific event of great importance**. Its sixth edition will take place in Uberlândia (Minas Gerais State) in 2017. The started at the Universidade Federal do Ceara (UFC), in the city of Fortaleza (Ceara State), from 2007 to 2011, then it was hosted by Universidade Estadual Paulista (UNESP) in Presidente Prudente (São Paulo State), in 2013. In 2015 the Workshop happened in Belem (Para State), organized by Universidade Federal do Para (UFPA). The event counted with different financial support, such as the National Council for Scientific and Technological Development (CNPq) and the Coordination for the Improvement of Higher Education Personnel (CAPES). Since the beginning **the event is bringing together national and foreign researchers, technicians, managers and students**.

The sixth edition of the International workshop on Planning and Sustainable Development in Watershed, will happen from 11th to 15th July, in the Universidade Federal de Uberlandia (UFU), and is organized by **national and international partnerships of different Universities and related entities**, such as Watersheds committees, Brazilian National association of Post Graduation in Geography (ANPEGE), Brazilian National Water Agency (ANA), Institute of Water Management of Minas Gerais (IGAM), Instituto Federal do Triângulo Mineiro (IFTM – Campus Uberlândia), among others. This joint effort is expected to produce good results for teaching, research and extension programs with technological innovations, behavioral changes, implementing and improving sustainability, etc.

📍 EVENT LOCATION

Universidade Federal de Uberlândia,
Campus Santa Mônica

👤 TARGET AUDIENCE

Researchers, professors, graduation and post-graduation students, technicians and managers of watersheds committees, national and international public and private entities, involved with planning and management of watersheds.

PERIOD

11 to 15 of July, 2017

MAIN THEMES

- Sustainability, Security and Hydro Resilience of Watersheds;
- Knowledge, technologies and Innovations for sustainability on Watersheds;
- Hydrographic and hydrogeology watersheds planning;

✍ REGISTRATION

Prices (BRL) until **31st of January, 2017.**

- Graduation students and public school teachers: R\$75,00;
- Post graduation students: R\$125,00;
- Professionals: R\$150,00;
- Short courses: R\$50,00;
- Field-trips: R\$50,00 (*Serra da Canastra: R\$100,00 the price can change according to the number of participants - food and lodging not included).

Prices (BRL) until **31st of March, 2017.**

- Graduation students and public school teachers: R\$100,00;
- Post graduation students: R\$150,00;
- Professionals: R\$200,00;
- Short courses: R\$60,00;
- Field-trips: R\$50,00 (*Serra da Canastra: R\$100,00 the price can change according to the number of participants - food and lodging not included).

Prices (BRL) until **the event date.**

- Graduation students and public school teachers: R\$125,00;
- Post graduation students: R\$175,00;
- Professionals: R\$250,00;
- Short courses: R\$70,00;
- Field-trips: R\$50,00 (*Serra da Canastra: R\$100,00 the price can change according to the number of participants - food and lodging not included).
